
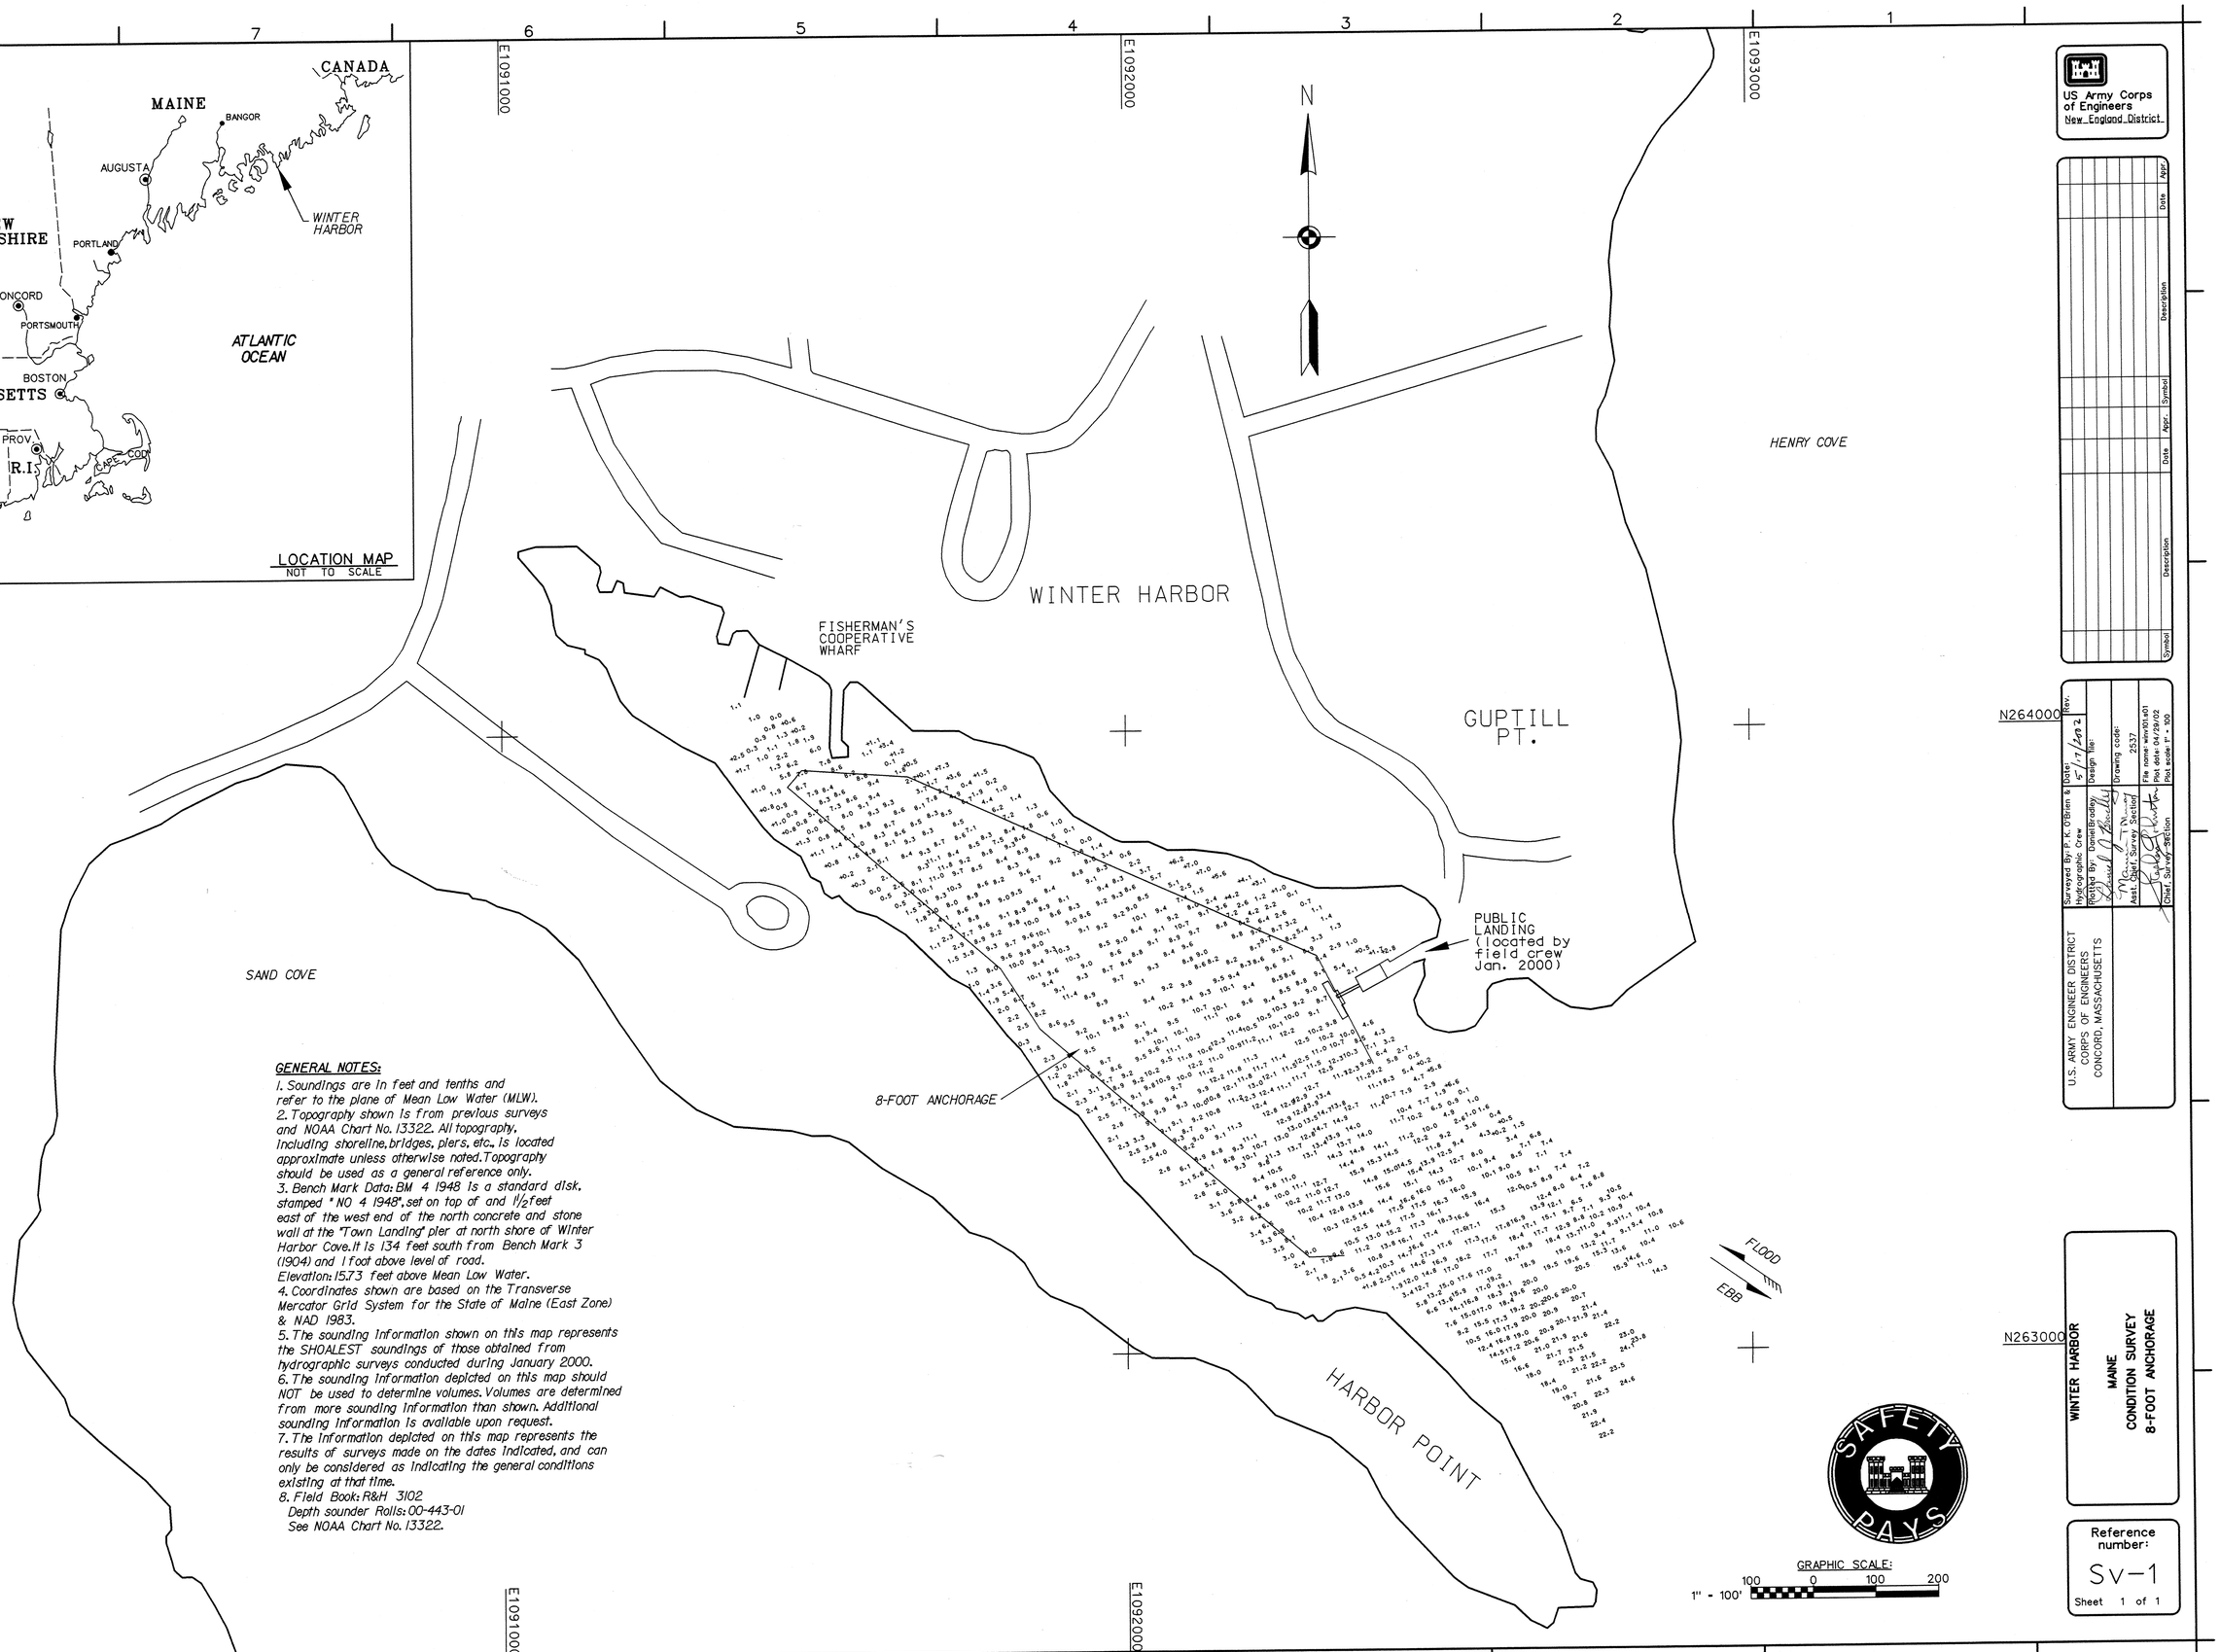
LOCATION MAP
NOT TO SCALE



GENERAL NOTES:

1. Soundings are in feet and tenths and refer to the plane of Mean Low Water (MLW).
2. Topography shown is from previous surveys and NOAA Chart No. 13322. All topography, including shoreline, bridges, piers, etc., is located approximate unless otherwise noted. Topography should be used as a general reference only.
3. Bench Mark Data: BM 4 1948 is a standard disk, stamped "NO 4 1948", set on top of and 1½ feet east of the west end of the north concrete and stone wall at the "Town Landing" pier at north shore of Winter Harbor Cove. It is 134 feet south from Bench Mark 3 (1904) and 1 foot above level of road. Elevation: 15.73 feet above Mean Low Water.
4. Coordinates shown are based on the Transverse Mercator Grid System for the State of Maine (East Zone) & NAD 1983.
5. The sounding information shown on this map represents the SHOALEST soundings of those obtained from hydrographic surveys conducted during January 2000.
6. The sounding information depicted on this map should NOT be used to determine volumes. Volumes are determined from more sounding information than shown. Additional sounding information is available upon request.
7. The information depicted on this map represents the results of surveys made on the dates indicated, and can only be considered as indicating the general conditions existing at that time.
8. Field Book: R&H 3102
   Depth sounder Rolls: 00-443-01
   See NOAA Chart No. 13322.
