LOCATION MAP
NTS

GENERAL NOTES:

1. Soundings are in feet and tenths and refer to the plane of Mean Lower Low Water (MLLW).
2. Topography shown is from previous surveys and/or NOAA Chart No.13305. All topography, including shoreline, bridges, piers, etc., is located approximate unless otherwise noted and should be used as a general reference only.
3. Bench Mark Data: BM 4 (1911) is a standard disk, unstamped, set in west face of rock near high water line, about 43 feet west-southwest of Bench Mark 2, and 83 feet southeast of Bench Mark 3. Elevation is 12.52 feet above MLLW.
4. Coordinates shown are based on the Transverse Mercator Grid System for the State of Maine (East Zone) & NAD 1983.
5. The sounding information shown on this map represents the SHOALEST soundings of those obtained from hydrographic surveys conducted during October 2003.
6. The sounding information depicted on this map should NOT be used to determine volumes. Volumes are determined from more sounding information than shown. Additional sounding information is available upon request.
7. The information depicted on this map represents the results of surveys made on the dates indicated, and can only be considered as indicating the general conditions existing at that time.
8. Field Book: R&H 3439
Depthsounder Rolls: 03-682-1
