GENERAL NOTES:

1. Soundings are in feet and tenths and refer to the plane of Mean Lower Low Water (MLLW).
2. Topography shown is from previous surveys and/or NOAA Chart No. 13223. All topography, including shoreline, bridges, piers, etc., is located approximate unless otherwise noted and should be used as a general reference only.
3. Bench Mark Data: B.M. 4538 A (1994) is a primary NOS disk, stamped "4538 A 1994", set in the northeast corner of the Town Dock concrete seawall, 15.4 feet (4.69 m) east-southeast of the ramp leading to the floating dock, 9.2 feet (2.80 m) west of the east face of the seawall, and 2.0 feet (0.61 m) south of the north face of the seawall.
Elevation is 6.23 feet above MLLW.
4. Coordinates shown are based on the Transverse Mercator Grid System for the State of Rhode Island & NAD 1927.
5. The sounding information shown on these maps represents the SHOALEST soundings of those obtained from hydrographic surveys conducted during March 2001.
6. The information depicted on these maps represents the results of surveys made on the dates indicated, and can only be considered as indicating the general conditions existing at that time.
7. Field Books: R&H 1062, 4303 and 5082
