This public notice is to share with the public the **“Ducks Unlimited – Vermont In-Lieu Fee Program 2012 Annual Report”** dated **“March 26, 2013.”** The program, which is an In-lieu Fee (ILF) program, serves as an alternative form of compensation for impacts to aquatic resources authorized by the New England District Army Corps of Engineers (Corps) and/or the State of Vermont Department of Environmental Conservation.

Compensatory mitigation occurs in circumstances where a permittee is required to compensate for the functions and values of aquatic resources lost as a result of the authorization after all efforts are made to avoid and minimize impacts. ILF is an option available to the applicant instead of completing permittee-responsible mitigation. Use of the ILF program is contingent upon Corps and/or State approval.

All ILF agreements in New England are available on the Corps' website:

Ducks Unlimited Vermont In-Lieu Fee Program

Annual Report – January 1, 2012-December 31, 2012

1. INTRODUCTION

The Ducks Unlimited Vermont In-Lieu Fee Program (DU-VT-ILF) is an option for compensatory mitigation for unavoidable impacts to waters of the United States in the State of Vermont. Permits are required by the U.S. Army Corps of Engineers (“Corps”) through the Clean Water Act (“CWA”) Section 404 for discharge of dredge or fill materials within “waters of the U.S.”; through the Rivers and Harbors Act Section 10 for structures or work in or affecting navigable water of the U.S.; and by the Vermont Department of Environmental Conservation (“DEC”) under section 8.5 of the Vermont Wetland Rules. These regulatory agencies require that aquatic resource functions and services lost due to impacts be replaced through compensatory mitigation after addressing avoidance and minimization of impacts. The DU-VT ILF program contains four (4) service areas that cover the entire state of Vermont (See Appendix A for a Service Area Map and payment distribution). This report outlines the DU-VT ILF program activities from January 1, 2012 to December 31, 2012.

2. IMPACTS and FEES RECEIVED

During the period of this annual report, one (1) In-Lieu Fee (ILF) payment was received. The tables that follow provide information on ILF payments, impact types and amounts, and funds available for future ILF projects.

- Table 1 provides a full list of all of the permitted impacts that have generated ILF payments. Included in this table is the applicant, date the payment was received, project name, permit numbers, town of impact, habitat type impacted, required amount of compensatory mitigation and the amount of the payment. This table is (will be) sorted by service area.
- Table 2 shows the financial account ledger for the DU-VT ILF program. Included in this table is the starting balance, payments received, administration fees collected, interest earned, disbursements made and the remaining account balance. This table is broken down by service area.
- Table 3 is the credit ledger for the DU-VT ILF program. This table shows the authorized advance credits, advance credits sold, credits released, released credits sold (in excess of satisfied advance credits), and the total credits available, broken down by service area.
- Table 4 indicates the funds distribution by service area. This table shows where funds are available to do projects.
