---

The District Engineer has received a permit application to conduct work in waters of the United States from the **Lane Construction Corporation, 953 Odlin Road, Bangor, Maine**. This work is proposed in freshwater wetlands adjacent to 953 Odlin Road, Bangor, Maine. The site coordinates are: Latitude 44.784296°N, Longitude -68.835622°W.

The work involves the expansion of the existing rock quarry. The current quarry and associated operations occupy approximately 109 acres. The applicant proposes to expand the quarry by approximately 65 acres on a 100 acre parcel of land they currently own adjacent to existing operations. Approximately 21 acres of forested wetlands would be impacted by the proposed expansion. The applicant would continue operations in the project area for approximately 50 years.

To compensate for the project's unavoidable impacts to wetlands, the applicant proposes to preserve an 837 acre parcel in Argyle. The site includes approximately 440 acres of freshwater wetlands, 250 of potential wetlands, 147 acres of adjacent uplands, and nine known vernal pools. The Orono Land Trust will oversee the preservation parcel. The compensation would be in place prior to the expansion of the facility. The applicant is proposing these measures seeking to lessen the project's impacts.

This notice solicits comments on these proposed measures from the interested or affected public as well as those agencies who speak to the public interest. After receipt of the comments, the Corps of Engineers will obtain any necessary additional information from the applicant and determine whether the proposed measures are practicable and serve to help mitigate this project's unavoidable impacts.

The work is shown on the attached plans entitled "The Lane Construction Corporation, Bangor, Maine, Odlin Road Quarry SLOD/Wetland Permitting, Grading Plan," "The Lane Construction Corporation, Bangor, Penobscot County, Maine," and "The Land Construction Corporation, Argyle Mitigation Tract, Argyle, Penobscot County, ME" on 4 sheet, undated.

**ENDANGERED SPECIES CONSULTATION**

The New England District, Army Corps of Engineers has reviewed the list of species protected under the Endangered Species Act of 1973, as amended, which might occur at the project site. It is our preliminary determination that the proposed activity for which authorization is being sought is designed, situated or will be operated/used in such a manner that it is not likely to adversely affect any Federally listed endangered or threatened species or their designated critical habitat. By this Public Notice, we are requesting that the appropriate Federal Agency concur with our determination.

The following authorizations have been applied for, or have been, or will be obtained:

- Permit, License or Assent from State.
- Permit from Local Wetland Agency or Conservation Commission.
- Water Quality Certification in accordance with Section 401 of the Clean Water Act.

In order to properly evaluate the proposal, we are seeking public comment. Anyone wishing to comment is encouraged to do so. Comments should be submitted in writing by the above date. If you have any questions, please contact Jana Jacobson at (978) 318-8496 or [jana.l.jacobson@usace.army.mil](mailto:jana.l.jacobson@usace.army.mil).

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider the application. Requests for a public hearing shall specifically state the reasons for holding a public hearing. The Corps holds public hearings for the purpose of obtaining public comments when that is the best means for understanding a wide variety of concerns from a diverse segment of the public.

The initial determinations made herein will be reviewed in light of facts submitted in response to this notice. All comments will be considered a matter of public record. Copies of letters of objection will be forwarded to the applicant who will normally be requested to contact objectors directly in an effort to reach an understanding.

**THIS NOTICE IS NOT AN AUTHORIZATION TO DO ANY WORK.**
