## Corps of Engineers publishes northcentral, northeast regional supplement to the Wetland Delineation Manual

**CONCORD, Mass.** – The U.S. Army Corps of Engineers, New England District announces the availability of the Regional Supplement to the Corps of Engineers Wetland Delineation Manual: Northcentral and Northeast Region, Version 2.0.

This supplement was developed by regional expert delineators with input from state and Federal agencies, academia, and other local experts. It was peer reviewed by a panel of independent scientists and field tested by interagency teams of state and Federal agencies to determine the clarity and ease of use of the document and whether its use will result in any spatial changes in wetland jurisdiction for Clean Water Act Section 404 purposes.
