## Traffic control on the Cape Cod Canal's Sagamore Bridge scheduled for one day, Thursday, Feb. 23

**CONCORD, Mass.** – Maintenance on the light fixtures on the Sagamore Bridge, spanning the Cape Cod Canal in Bourne, Mass., is scheduled to be performed, weather permitting, on Thursday, Feb. 23, 2012, during day light hours only, according to U.S. Army Corps of Engineers officials.

For this one day, traffic control measures will be installed that reduce the travel lanes to ONE LANE IN EACH DIRECTION. Motorists planning to use the Sagamore Bridge should be aware that travel delays are likely to occur during the morning peak travel period.

All travel lanes on the Bourne Bridge will remain open to traffic.

Those who want to be notified of changes to the bridge work schedule can sign up for the Bridge Work Alerts email notifications. To sign up for the Bridge Work Alerts send an email to: [CapeCodCanalBridges@usace.army.mil](mailto:CapeCodCanalBridges@usace.army.mil) with the subject title "Bridge Work Alerts." An email alert is sent when there are major changes to the bridge work status or schedule.
