

Impoundment Field Form Ranking Modifications

Upon completion of all fieldwork and final ranking, one modification was made to the ranking system. This modification included ranking sites based on the actual range of observed scores rather than a hypothetical range of scores. The modified ranking system scales are provided below.

Observed Range of Scores and Modified Ranks

Wildlife Value

Range of Observed Scores: 12-24
Modified Ranks: 12-15 (L), 16-20 (M), 21-24 (H)

Aquatic/Fishery Value

Range of Observed Scores: 7-16
Modified Ranks: 7-9 (L), 10-13 (M), 14-16 (H)

Recreation/Historic Value

Range of Observed Scores: 5-12
Modified Ranks: 5-6 (L), 7-10 (M), 11-12(H)

Total Score – Restoration Opportunity Rank

Range of Observed Scores: 24-52
Modified Ranks: 24-32 (H), 33-43 (M), 44-52 (L)
