

**TABLE OF CONTENTS**

**INTRODUCTION**..... 1

**BACKGROUND**..... 3

**DETERMINATION PROCESS**..... 4

**CONCLUSIONS NECESSARY TO SUPPORT FURTHER REVIEW OF THE APPLICATION** ..... 5

**INCORPORATION OF PRIOR PUBLIC COMMENTS, TESTIMONY, AND DETERMINATIONS**..... 5

**THE PROJECT CANNOT MEET APPLICABLE SITE EXCLUSION CRITERIA**..... 7

**THE PROJECT CANNOT DEMONSTRATE ITSELF TO BE THE LEAST ENVIRONMENTALLY DAMAGING PRACTICABLE ALTERNATIVE**..... 8

**The Performance Standards Established by the 404(b)(1) Guidelines Require Denial of the Applications**..... 8

**The National Value of the Taunton River and Mount Hope Bay, As Recognized by the Department of the Interior and the Environmental Protection Agency, Must Be Accorded Due Weight in Any Evaluation of Project Impacts to the Aquatic Environment**..... 9

**The Commission’s Delegation of Major Components of The FEIS to the USACE Leaves the Record Bereft of The Data Necessary to Process the Applications in Accordance with the Guidelines**.....11

**The Project Will Violate Virtually Every Requirement of the Guidelines**..... 12

Practicable Alternatives Requirement..... 12

Water Quality Requirements and Toxic Effluent Standards..... 14

Prohibition on Activities Resulting in Degradation of Waters of the United States..... 14

Requirement for Minimization of Potential Impacts..... 15

<b><u>ANY FORESEEABLE BENEFIT OF THE PROJECT WILL BE OUTWEIGHED BY THE SCOPE AND EXTENT OF PERMANENT ADVERSE IMPACTS ON THE PUBLIC INTEREST.....</u></b>	<b>16</b>
<b><u>Cumulative Impacts Analysis.....</u></b>	<b>17</b>
<b><u>The USACE Must Consider All Factors Relevant to a Particular Project When Engaging in Public Interest Review, Including the Likelihood that the Project Can or Will Be Constructed.....</u></b>	<b>17</b>
<b><u>The Significant Adverse Impacts to the Aquatic Environment and Natural Resources Imposed by the Project Significantly Overshadow The Possible Benefit Suggested in the Project Purpose.....</u></b>	<b>19</b>
<b><u>The Project Presents a Potential for Irreversible and Devastating Impacts to Human Health and Public Safety.....</u></b>	<b>19</b>
<b><u>The Project is Antithetical to the Long-Term Socio-Economic Health and Development of The City of Fall River and of the Region.....</u></b>	<b>20</b>
<b><u>CONCLUSIONS.....</u></b>	<b>22</b>
