Nicole Giles of U.S. Army Corps of Engineers  
James Higgins of U.S. Army Corps of Engineers

The following have been modified:

REQUEST FOR INFORMATION

QUESTION 1: What kind of tailwater equipment is downstream? Does it protrude into the river?

RESPONSE 1: There is a pipe that enters the water at a slight angle and goes to the bottom of the river channel, approximately 6 feet away from the concrete anchor it is mounted to. Please see additional photo attachment for additional information.

QUESTION 2: Can I clear and pull the weir plug to decrease the amount of water in the downstream channel?

RESPONSE 2: Yes. There is a round metal plug in the middle of the downstream concrete weir. It is possible to remove this plug to drain some of the water to decrease the level. Please coordinate with the Technical Point of Contact.

QUESTION 3: What about vehicle access and how wide are the gates?

RESPONSE 3: Access to the inlet channel can be arranged from a gate located on Old Howarth Road. This gate is 20' 8" wide. Access to the outlet channel can be arranged from a gate located on the downstream side of the dam, behind an apartment building. This gate is 14' 2" wide.

QUESTION 4: The Period of Performance is short given the current wintery/icy conditions and expected flooding in the spring. Will it be possible for a time extension?

RESPONSE 4: The Government may consider a Period of Performance extension depending on the cause of delay.

QUESTION 5: What is the Bailey bridge, crossing the inlet channel of the dam, rated for a weight limit?

RESPONSE 5: The Bailey bridge has a curb-to-curb width of 13' 8" and has an Inventory Rating of 44.0 tons of weight.

QUESTION 6: What safety measures must be taken if people are in the river channel?

RESPONSE 6: The safety measures for individuals working in the river channel are covered in the safety manual EM 385-1-1 and vary with the type of work, depth of the channel at time of work, and other factors. Please refer to Section I.5. Safety Requirements, of the Performance Work Statement.

QUESTION 7: Are we allowed to use equipment in the river?

RESPONSE 7: To mitigate environmental impacts from potential leaks and spills of hazardous materials, motorized equipment shall not be permitted in the river channel. For equipment stationed on land, the machine's attachments, loading arms, and rigging are allowed to enter the river channel.
