**The following changes have been made:**

**Miscellaneous text in this section has been added to:**

### REQUEST FOR INFORMATION

Question 1: Please provide clarification on the note about the distances:

Note: The [Hopkinton] Gatehouse is approximately 850 feet from the Project Office and is accessible by truck (with the exception of the Service Bridge adjacent to the Gatehouse - Contractor must walk this area to the fill area).

Note: The [Everett] Gatehouse is approximately one quarter mile from the Project Office and is accessible by truck. The Contractor must provide a wrench to open the fill cover plate which is located in the deck of the Service Bridge. This area is only accessible after 9:00am. A key to the gate will be provided to the Contractor for access.

How far is the fill area from where a truck can access?

Response 1: The distance from the gate where a fuel truck can park to the fill at the Hopkinton Gatehouse is approximately 75 feet. The Contractor will be required to walk from the gate to the fill. A fuel truck can back the length of the service bridge at the Everett Gatehouse to deliver fuel. The awarded Contractor will be provided a key to the gate at the Everett Dam. After opening this gate, the Contractor can drive to the Gatehouse and back the length of the service bridge to deliver fuel.
