SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Section A - Solicitation/Contract Form

The following changes have been made:

INFORMATION	FROM	TO
Response Due Date	10 Sep 2025	15 Sep 2025

Miscellaneous text in this section has been added to:

REQUEST FOR INFORMATION

Question 1: How far away is a water source? Is it possible to pump out of a brook, etc?

Response 1: There is a stream approximately 3/4 of a mile away; however, the stream is low due to lack of rain and may not be a feasible water source.

Question 2: How far away is power?

Response 2: Solicitation indicates that the Government will not provide any utilities as the only power source is across a public road and would not be able to be used at this location.

Question 3: Has the land been surveyed with a transit to see how level the surface is? Is it possible that the land is currently the 6 inches of elevation that is required for excavation?

Response 3: No, the land has not been surveyed. The reason for the excavation is to remove vegetation, create a level working surface, and accommodate the border and base material. The expectation is that approximately 6 inches of material will need to be removed to remove the sand from the volleyball pit and create a level working surface.

Question 4: The border will be set in the ground 6 inches?

Response 4: Installation of the safety border shall be level with 6 inches of border exposed above grade.

Question 5: Solicitation indicates that concrete footings, rock, stumps could be present when excavating, does the Government know if these are present?

Response 5: It is unknown if these are present as the ground has not been recently disturbed.

Question 6: What is the time frame to install this?

Response 6: Solicitation states that installation shall be complete within 90 days of contract award.

Question 7: Is work on weekends permitted?

Response 7: No, work on weekends is not permitted.

Question 8: Are the posts for the playground to be set in concrete? If so, what size footings are required?

Response 8: The manufacturer provided installation instructions will be included as a separate attachment. Specifications for post installation and footing requirements are identified in these instructions.
