### **ALTERATION OF A U.S. ARMY CORPS OF ENGINEERS CIVIL WORKS PROJECT PURSUANT TO 33 USC 408: MARINA STRUCTURES FIVE MILE RIVER FEDERAL NAVIGATION PROJECT (FNP) NORWALK, CONNECTICUT**

Interested parties are hereby notified that the U.S. Army Corps of Engineers, New England District (USACE) is evaluating plans under 33 U.S.C. 408 (Section 408) to replace existing marina structures in Five Mile River proposed by 101 Rowayton Partners, LLC. The proposed structures will be replaced within the 3:1 buffer zone of the USACE maintained 8-foot deep Five Mile River Federal Navigation Project (FNP) Anchorage located at 101 Rowayton Avenue, Norwalk, Connecticut. The direct impact on the FNP offset involves removing a 2-foot-by-24-foot floating dock and a 2-foot-by-19-foot timber floating dock with associated pilings, and installing a 6-foot-by-60-foot floating dock and two timber pilings. The new structures will be located approximately 4 feet 5 inches from the Five Mile River FNP.

This Notice is being issued pursuant to 33 U.S.C. 408 and USACE Engineering Circular (EC) 1165-2-220. Section 408 allows USACE to grant permission for the alteration, occupation, or use of a USACE civil works project if it is determined that the activity will not be injurious to the public interest and will not impair the usefulness of the Federal project. USACE has made the preliminary determination that the replacement of existing structures within the FNP offset will not have a negative impact on public interest, use, or our ability to maintain the Five Mile River FNP. The public is invited to provide comment associated with this Section 408 evaluation. To request more information contact: Christina Comeau, New England District, U.S. Army Corps of Engineers, 696 Virginia Road, Concord, MA 01742, (978) 318-8705, [Christina.M.Comeau@usace.army.mil](mailto:Christina.M.Comeau@usace.army.mil). The comment period will end on February 23<sup>rd</sup>, 2026. Letters should be postmarked by this date.
