GENERAL NOTES:

1. Soundings are in feet and tenths and refer to the plane of Mean Lower Low Water (MLLW) 1983-2001 Tidal Epoch.
2. Topography shown is from previous surveys and/or NOAA Chart No.13307. All topography, including shoreline, bridges, piers, etc., is located approximate unless otherwise noted and should be used as a general reference only.
3. Bench Mark Data: TBM CAM (2001) is a standard U.S.E. Department disk stamped "No. CAM 2001", set in a concrete walk at the northeast corner of the bulkhead projecting into the harbor of the Camden Yacht Club. Elevation is 14.73 feet above MLLW.
4. Coordinates shown are based on the Transverse Mercator Grid System for the State of Maine (1801 East Zone) & NAD 1983.
5. Survey was performed using an Odom MK2 echotrac echosounder. Horizontal positioning was obtained utilizing a Leica 1200 GPS system.
   An RTK base station was set on TBM CAM 01.
6. The sounding information shown on this map represents the SHOALEST soundings of those obtained from hydrographic surveys conducted during January 2012.
7. The sounding information depicted on this map should NOT be used to determine volumes. Volumes are determined from more sounding information than shown. Additional sounding information is available upon request.
8. The information depicted on this map represents the results of surveys made on the dates indicated, and can only be considered as indicating the general conditions existing at that time.
9. Field Book: R&H 2724
   14-foot depth contour shown thus: ——
   10-foot depth contour shown thus: – – –
   Survey by: Paul K. O'Brien and crew
   Refer to Survey No. 12-1193
