LOCATION: This small, scenic waterway in the Town of Ogunquit, Maine, is located about 16 miles northeast of Portsmouth. The harbor, locally known as Perkins Cove, is the Town’s principal harbor and is used extensively by local and transient recreational boats, sportfishing craft, and lobster boats.

AUTHORIZATION: Acts of 1945 and 1958, and further modified under the Continuing Authority of Section 107 on 14 January 1993. The 1945 Act authorized a 5-foot channel and 3.2 acres of anchorage. The 1958 Act increased the 5-foot anchorage to 4.2 acres. The 1993 authorization deepened the channel and much of the lower half of the anchorage to 7 feet.

EXISTING PROJECT: The existing project provides for a channel of 7 feet deep and 40 feet wide from deep water in Perkins Cove, at the mouth of Josias River, extending about 1,224 feet to a 4.2-acre anchorage area in the basin above the footbridge. The anchorage consists of 2.1 acres at a depth of 7 feet in the lower eastern and central portions of the basin, and the remaining 2.1 acres at a depth of 5 feet alongside and up-harbor of the 7-foot area.

TOPOGRAPHY: All topography, including shoreline, bridges, piers, etc., is an approximate location unless otherwise noted on this sheet, and should be used as a general reference only.

DATE PLAN: Datum is Mean Lower Low Water (MLLW) based on information obtained from NOAA National Ocean Survey (NOS) V-Datum model in the vicinity of Josias River, Perkins Cove, Ogunquit, Maine, coordinates are based on the Transverse Mercator Grid System for the State of Maine (West Zone 1802) and NAD 1983.
