Remediation work at the Raymark Superfund site, Stratford, Connecticut.

Small businesses play a key role in our mission success, and we want to work with you! In Fiscal Year 2022, New England District awarded over \$152 million dollars to small businesses.

Everything we do in New England is a team effort. Through teamwork, together we will continue supporting our great nation delivering quality projects, on time, on budget, safely.

Colonel John Atilano II
District Commander

Colonel John Atilano II at the Climatic Cold Chamber Ribbon Cutting Ceremony, Cold Regions Research and Engineering Laboratory, Hanover, New Hampshire.

New England District and Small Business

The involvement of small business in our Military and Civil Works programs is vital to our mission. Much of our success is due to the initiative, imagination, and productivity of small businesses. The U.S. Army Corps of Engineers (USACE) is committed to fostering the capabilities of small business. At New England District, we collaborate with our small business stakeholders to ensure success, for

all parties involved. Small business utilization is just good business.

Mission Statement:

To sustain USACE as a premier organization in developing small businesses and maximizing their opportunities to participate in our procurements, thereby ensuring a broad base of capable suppliers to support the USACE mission and strengthen our nation's economic development.

Our Commitment:

The New England District fully supports the national policy of providing Small Businesses, Small Disadvantaged Businesses, 8(a), HUBZone Small Businesses, Women-Owned Small Businesses, Veteran-Owned Small Businesses and Service-Disabled Veteran-Owned Small Businesses the opportunity to provide supplies and services which are within their capability. Small Businesses are integral to our environmental missions, and many of our Sustainment, Restoration and Modernization (SRM) projects in military. We are committed to the worthwhile and varied socioeconomic programs and through teamwork, we will continue to help support this great nation into the next millennium.

New England District Overview

USACE, New England District is responsible for managing the Civil Works responsibilities in a 66,000 square mile region encompassing the six New England states east of the Lake Champlain drainage basin.

The region has 6,100 miles of coastline, 13 deep draft commercial waterways, 13 major river basins, and thousands of rivers and streams. Within this area of operation, USACE has completed hundreds of Civil Works projects that benefit the New England communities.

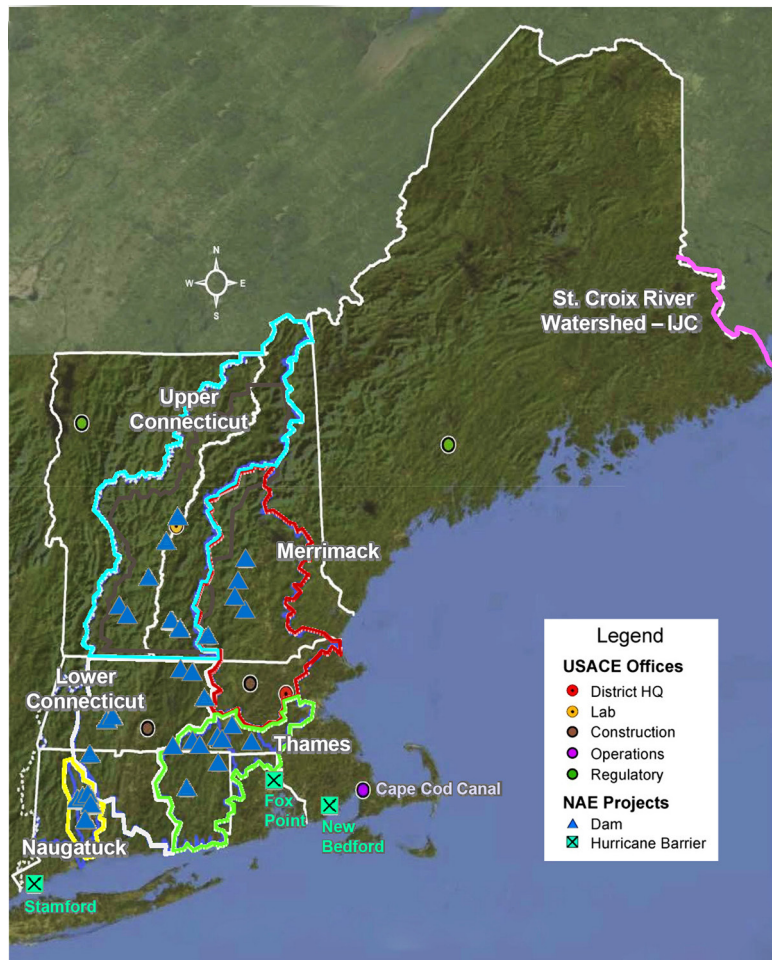

The missions of the New England District are many and varied. They include environmental remediation; flood risk management; natural resource management; stream bank and shoreline protection; navigation improvements and maintenance; disaster and emergency assistance; regulatory administration; and engineering and construction management support to other agencies.

District headquarters, Concord, Massachusetts.

New England District Overview

New England District is one of six districts in the North Atlantic Division that delivers a broad spectrum of programs and projects to the New England region and the nation.
