#### Pipe Connections, Installations, and Other Work

Ludlow worked at the water tank work zone at the east end of the Shared Access Driveway to excavate a trench from the electrical enclosure to "Station 11+60 where they placed a concrete pad for a transformer. Ludlow also began to assemble sections of rebar for placement over electrical lines that will run from the electrical enclosure west to "Station 14+50. DN Tanks was present but was not able to perform much work due to heavy rain today. Ludlow placed concrete over utility conduits located on the west and north side of the booster station building.

### Daily Activities – Booster station, S. Main Street, Middletown

Ludlow placed concrete over utility conduits located on the west and north side of the booster station building.

0730: Ludlow is staged at the Booster Station located at Station 750+63, awaiting the delivery of concrete. The concrete will be placed in two parallel trenches with PVC utility conduits located on the north and west side of the Booster Station.

0831: Ludlow continues to prepare for the concrete pour at the Booster Station. Heavy rain is falling.

### **Daily Report**

Project:	Durham Meadows Pipeline Installation	Date:	June 14, 2021
Location:	S. Main Street and the Shared Access Driveway, Middletown	Day of Week:	Monday
Project #:	AECOM: 6061487	Report No:	263
Contractor:	Ludlow Construction	Page:	2 of 12

0930: USACE and AECOM representatives visit the booster station work zone to inspect chairs used for spacing on the PVC conduits and the rebar that was placed over the PVC in the trench located on the north and west side of the booster station.

1100: Ludlow and JTC are at the booster station awaiting the delivery of concrete.

1136: Tilcon delivers a truckload of concrete to the booster station work zone.

1146: Tilcon and Ludlow have started to place concrete in the conduit trench located on the north and west sides of the booster station. Ludlow is using a hand-held vibrator to settle the concrete as it is being placed. A moderate amount of rain is currently falling.

1153: JTC is in the process of collecting field data on the concrete that was delivered to the booster station work zone. They repot a slump test of 5.5" and a air entrainment value of 5.7%. JTC also collects five concrete cylinder samples for future laboratory analysis.

1331: A heavy amount of rain is currently falling on the concrete that was placed on at the booster station.

#### Daily Activities - Water tank work zone, Shared Access Driveway, Middletown

Ludlow worked at the water tank work zone at the east end of the Shared Access Driveway to excavate a trench from the electrical enclosure to "Station 11+60 where they placed a concrete transformer pad. Ludlow also began to assemble sections of rebar for placement over electrical lines that will run from the electrical enclosure west to "Station 14+50. DN Tanks was present but was not able to perform much work due to heavy rain today.

0740: Ludlow has mobilized to the water tank work zone located east of the Shared Access Driveway in Middletown, where two personnel from DN Tanks are also present.

0900: Ludlow begins to lay out rebar to be fastened and eventually placed over utility conduits on the south side of the Shared Access Driveway. Heavy rain continues to fall.

0955: Ludlow continues to lay out rebar on the north side of the Shared Access Driveway and has begun to connect sections of the rebar together with wire ties.

1027: Ludlow continues to connect sections of rebar together with wire ties on the north side of the Shared Access Driveway. Heavy rain starts again.

1215: Ludlow has begun to excavate a trench south of the Shared Access Driveway from the electrical enclosure to ~Station 11+60 for the installation of electric lines.

1423: Ludlow is installing a concrete transformer pad associated with the electric service being brought up to the electrical enclosure located on the north side of the altitude valve vault. Ludlow continues to connect sections of rebar together with wire ties on the north side of the Shared Access Driveway.
