### Pipe Connections, Installations, and Other Work

Ludlow continued to perform permanent paving activities, working on the southbound lane of Main Street, Durham. DN Tanks performed minor tasks on the water tank as they prepare to demobilize. JMS was on site to assist in the dechlorination of water lines.

### Daily Activities – Water tank work zone, Shared Access Driveway, Middletown

DN Tanks continued work on the inside of the water tank located east of the Shared Access Driveway in Middletown.

0744: A&R Electric is mobilizing to the water tank work zone to pull communication lines into the electric enclosure located north of the altitude vault.

1300: AECOM performs an inspection of the water tank interior with USACE and DN Tanks. The USACE representative requests that DN Tanks apply additional mortar to the temporary entrance patch located on the northeast side of the tank interior.
