Main Street won't be cleared today. Can they work off road without closing the road?

Laura,

Is the Contractor able to work on the portion of Maple Ave near the fair grounds?

Very Respectfully,

Lisa Belisle CPT, EN Project Engineer New England District US Army Corps of Engineers

Office: 978-318-8154 Cell: 413-800-5523 USACE: lisa.m.belisle.cpt@usace.army.mil NIPR: lisa.m.belisle2.mil@mail.mil

Work Performed Today:

Unresolved Issue: No

Shift: 1

Kurt Mintell No work onsite today due to power outages form the storm and Durham's request for no work to be done on the roads.

On Tuesday, August 4, 2020, Tropical Storm Isaias brought heavy rainfall and

high winds resulting in minor flooding and storm damage and power outages throughout the State of Connecticut. Due to the damage, concrete plants have

been shut down due to down trees and power issues. This shutdown affects critical path activity, A7250 Form, Reinforce & Place Floor Slab - Storage Tank.
