

Massachusetts Hurricane Evacuation Study

Technical Data Report

May 2016

**US Army Corps
of Engineers®**
New England District

**Massachusetts
Hurricane Evacuation Study**

Technical Data Report

May 2016

Table of Contents

Table of Contents

1.0 Study Area	1-1
1.1 Introduction	1-1
1.1.1 Study Purpose	1-1
1.1.2 Funding	1-1
1.1.3 Authority	1-1
1.1.4 Coordination Information	1-2
1.2 Description of Study Area	1-4
1.2.1 Geography	1-4
1.2.2 Geology and Topography	1-6
1.2.3 Bathymetry	1-6
1.2.4 Demographics	1-7
1.3 Historical Hurricane Activity	1-14
1.4 Major Analyses	1-20
1.4.1 General	1-20
1.4.2 Hazards Analysis	1-20
1.4.3 Vulnerability Analysis	1-21
1.4.4 Behavioral Analysis	1-21
1.4.5 Shelter Analysis	1-21
1.4.6 Transportation Analysis	1-21
1.4.7 HURREVAC/Decision Tools	1-21
2.0 Hazards Analysis	2-1
2.1 Introduction	2-1
2.1.1 Purpose	2-1
2.1.2 Forecasting Inaccuracies	2-1
2.1.3 Saffir/Simpson Hurricane Scale	2-1
2.2 Storm Surge	2-3
2.2.1 Introduction	2-3
2.2.2 Factors Affecting Surge Height	2-3

Table of Contents

2.2.3 Total Flood Elevation	2-4
2.3 The SLOSH Model.....	2-5
2.3.1 General	2-5
2.3.2 SLOSH Grid Configuration.....	2-6
2.3.3 Verification of the Model.....	2-6
2.3.4 Model Output	2-7
2.4 Modeling Process.....	2-7
2.4.1 Simulated Hurricanes.....	2-7
2.4.2 Maximum Envelopes of Water (MEOWs).....	2-8
2.4.3 Maximum of the MEOWs (MOMs).....	2-9
2.5 Other Hurricane Hazards	2-9
2.5.1 Freshwater Flooding	2-9
2.5.2 Hurricane Winds and Vulnerability.....	2-10
3.0 Vulnerability Analysis	3-1
3.1 Purpose	3-1
3.2 Hurricane Surge Inundation.....	3-1
3.3 Community-Specific Evacuation Zone Development	3-1
3.4 Hurricane Surge Mapping.....	3-2
3.5 Hurricane Evacuation Zones	3-86
3.6 Vulnerable Population	3-172
3.7 Possible Evacuation Obstacles.....	3-197
3.8 Evacuation Route Flooding.....	3-269
3.9 Emergency Transportation Needs	3-269
3.10 Mobile Homes.....	3-269
4.0 Behavioral Analysis.....	4-1
4.1 Introduction	4-1
4.2 Purpose	4-1
4.3 Objectives.....	4-1
4.4 Behavioral Anlysis.....	4-2

Table of Contents

4.4.1 Evacuation Participation Rates	4-3
4.4.2 Evacuation Timing.....	4-5
4.4.3 Type of Refuge	4-7
4.4.4 Destination.....	4-8
4.4.5 Vehicle Use	4-9
4.5 Possible Evacuation Obstacles.....	4-10
4.5.1 Households Needing Assistance to Evacuate	4-10
4.5.2 Other Challenges	4-11
4.6 Planning, Information Access, and Home Characteristics	4-13
4.6.1 Family Evacuation Plan	4-13
4.6.2 Information Awareness and Access.....	4-13
4.6.3 Housing Characteristics	4-14
4.7 Past Evacuation Experiences.....	4-14
4.7.1 Hurricane Sandy (2012)	4-14
4.7.2 Hurricane Irene (2011)	4-19
4.7.3 Hurricane Earl (2010).....	4-22
5.0 Sheltering Analysis.....	5-1
5.1 Purpose	5-1
5.2 General.....	5-1
5.3 Shelter Vulnerability	5-1
5.4 Shelter Demand	5-2
5.5 Shelter Capacities and Inventories	5-9
6.0 Transportation Analysis	6-1
6.1 Introduction	6-1
6.2 Analysis Objectives.....	6-4
6.3 Transportation Analysis and Input Assumptions	6-5
6.4 Traffic Analysis Zones.....	6-6
6.5 Housing Unit and Population Data	6-90
6.6 Behavioral Assumptions of the Evacuating Population	6-112

Table of Contents

6.6.1 Participation Rates.....	6-112
6.6.2 Response Rates.....	6-131
6.6.3 Destination Percentages.....	6-132
6.6.4 Vehicle Usage.....	6-134
6.7 Transportation Modeling Methodology	6-137
6.7.1 Introduction	6-137
6.8 The Transportation Model	6-137
6.9 Transportation Modeling Process.....	6-140
6.10 Model Results	6-236
6.10.1 Evacuating People and Vehicles	6-236
6.10.2 Shelter Demand and Capacity Considerations	6-273
6.10.3 Traffic Volumes and Critical Roadway Segments	6-273
6.10.4 Compatibility with Other Hurricane Evacuation Related Studies	6-291
6.10.5 Martha’s Vineyard and Nantucket Ferries	6-292
6.10.6 Estimated Evacuation Clearance Times.....	6-293
6.11 State to State Trips and Clearance Time Impacts.....	6-305
6.12 Traffic Control Measures	6-317
6.12.1 General Recommendations	6-317
6.12.2 Specific Recommendations	6-318
6.13 Report Summary	6-320
7.0 HURREVAC/Decision Tools	7-1
7.1 Decision Tools	7-1
7.1.1 Purpose	7-1
7.1.2 Background	7-1
7.2 HURREVAC	7-2
7.2.1 History.....	7-2
7.2.2 Overview for Using HURREVAC	7-3
7.3 Using HURREVAC: The Basics.....	7-5
7.3.1 Workspace Layout	7-5

Table of Contents

7.3.2 Map Tools	7-6
7.3.3 Context Menu and Shortcut Keys.....	7-7
7.4 HURREVAC Program Setup	7-9
7.4.1 Download Schedule Tab	7-9
7.4.2 Local Areas Tab	7-10
7.4.3 Points of Interest	7-11
7.4.4 Timeline	7-12
7.4.5 Time Zone	7-13
7.4.6 Default Map Settings	7-13
7.5 Wind Forecast – Timing and Probability Reports	7-14
7.5.1 Opening the Wind Timing and Wind Probability Reports	7-14
7.5.2 Wind Timing for Single Area/Point of Interest Report	7-15
7.5.3 Wind Timing All Affected Areas/Local Areas/All Affected Points of Interest Report	7-15
7.5.4 Wind Probabilities Single Area Report	7-15
7.5.5 Wind Probabilities All Affected Areas/Local Areas Report/All Affected Points of Interest Report	7-16
7.5.6 Inland Wind Decay for Areas/Points of Interest.....	7-16
7.6 Evacuation Timing Features.....	7-17
7.6.1 Opening the Evacuation Timing Reports	7-17
7.6.2 Evacuation Timing Single Area Scenario.....	7-17
7.6.3 Evacuation Timing All Affected Areas/Local Areas.....	7-18
7.6.4 Clearance Time Arc	7-18
7.7 Other Forecast Data	7-19
7.7.1 Doppler Radar Observations	7-19
7.7.2 Rain Forecast	7-19
7.7.3 River Data and Forecasts	7-19
7.7.4 Tide Gages.....	7-19
7.7.5 Probabilistic Storm Surge Data	7-20
7.8 Browsers/Utilities	7-22
7.8.1 Evacuation Clearance Time Browser	7-22

Table of Contents

7.8.2 Export to GIS	7-22
7.8.3 Storm Summary PDF	7-22
7.9 Accessing and Interpreting Important Decision Making Functions.....	7-23
7.9.1 Determining the Relative Risk of Experiencing Landfall in a Community over the 120 Hour Forecast Period	7-23
7.9.2 Determining Which Community Has the Highest Forecasted Peak Wind	7-26
7.9.3 Determining the Projected Wind Speed Forecast for Nantucket, MA at Each Hour in the Forecast Period.....	7-26
7.9.4 Determining the Evacuation Start Time for Wareham, MA, Based on a Cat 2 Direct Hit Scenario	7-27
7.9.5 Determining the Evacuation Start Time for Newport, RI, Based on a Cat 1 Using the Clearance Time Arc Method	7-31
7.10 Other Features of HURREVAC.....	7-32
7.11 Obtaining HURREVAC.....	7-34
